2005 Membership Directory  
Entomological Society of Pennsylvania

## “CONTACT POLICY”

We are always trying to help members contact one another and share interests. However, in order to respect privacy and avoid having third parties using our directory for purposes outside of the scope of our Society, we are using this policy:

If you are an ESP member and you would like to contact another member who has no listed email address, you can send an email to Membership Chairperson Kevin Kelly at [krkelly8@yahoo.com](mailto:krkelly8@yahoo.com). Please put “ESP Contact” in the subject line. Provide **your** name and contact information, the name of the person you are trying to contact, and the subject/topic of your inquiry. An ESP Chairperson or Officer will contact the member on your behalf, forward your message, and will ask that member to contact **you**. Messages from non-members will not be forwarded! *While we realize that this method is a bit cumbersome, it should meet the needs of everyone and offer a level of privacy to all members, including those who do not wish to make street addresses, telephone numbers and email addresses available to the general public.*

Mass contacts will not be forwarded by the system discussed above, however, you may use the Yahoo Group discussion forum ([entsocpa@yahoogroups.com](mailto:entsocpa@yahoogroups.com)) for topics of interest to the Society in general. If you have not already done so, please join our email discussion forum hosted by Yahoo Groups. There is no fee to get the ID and no registering with Yahoo is needed if you want to have access to **only** the email discussion forum. To subscribe to our email discussion forum, just send an email to [entsocpa-subscribe@yahoogroups.com](mailto:entsocpa-subscribe@yahoogroups.com). Yahoo Groups will automatically send you a confirmation message with a web link to continue the registration. When you receive this email, you have two options:

Click that web link and follow the instructions that appear to obtain full access to archives and file sharing. You will be given the options to create a Yahoo profile and choose to receive a daily digest or

individual emails. Be sure to complete the comment field during registration. State that you are a new member. The Webmaster will verify and give approval.

If you are not interested in the additional list features, simply reply to the confirmation message. The Webmaster will verify and give approval.

Email Membership Directory corrections to Kevin Kelly at
